## 108 DAYS ONLINE COACHING- DAY 39 - (18-10-2019)

**PHYSICS** 

NAME OF THE CANDIDATE \*

## PLACE OF THE CANDIDATE \* PATHANAMTHITTA WHAT'S APP NO (JOINED IN THE SAI EDUCATION COACHING PLATFORM) \* 0000000000

## YOUR DAIRY BEFORE SENDING THE ANSWERS.

https://youtu.be/g2YN9JZeld4 https://youtu.be/hqptmVr5eOo https://youtu.be/hqptmVr5eOo

| 1. Anything that possess weight and occupies space is called * | 1 point |
|--|---------|
| Matter   |         |
| Mass   |         |
| ○ Volume   |         |
| ○ Atom   |         |
| 2. Mainly units are classified into *                          | 1 point |
| 3 types  |         |
| O 4 types  |         |
| 2 types  |         |
| ○ 5 types  |         |
| 3. Who discovered X-rays? *                                    | 1 point |
| Faraday  |         |
| Roentgen   |         |
| O Curie  |         |
| ○ Hertz  |         |

| 4. Unit of luminous intensity? *   | 1 point |
|--|---------|
| kilogram   |         |
| metre  |         |
| second   |         |
| candela  |         |
| 5. What is the symbol used to represent SI unit for amount of substance? * | 1 point |
| mol  |         |
| O mole   |         |
| ○ A  |         |
| O M  |         |
| 6. Which of the following is/are scalar quantities? *                      | 1 point |
| mass   |         |
| Speed  |         |
| work   |         |
| all of the above   |         |
| 7. What is the SI unit for electric current? *                             | 1 point |
| ○ kelvin   |         |
| Slug   |         |
| ampere   |         |
| barn   |         |

| 8. Study of causes and changes in motion?*   | 1 point |
|--|---------|
| dynamics   |         |
| Optics   |         |
| kinematics   |         |
| one of the above   |         |
| 9.Revolution of earth around sun is an example of *                                    | 1 point |
| <ul><li>circular motion</li></ul>  |         |
| rotation   |         |
| oscillatory motion   |         |
| 10. Freely falling apple is an example of *  | 1 point |
| circular motion  |         |
| oscillatory motion   |         |
| periodic motion  |         |
|  |         |
| linear motion  |         |
| <ul><li>linear motion</li><li>11. Rate of change of displacement is called *</li></ul> | 1 point |
|  | 1 point |
| 11. Rate of change of displacement is called *   | 1 point |
| 11. Rate of change of displacement is called *  Distance                               | 1 point |

| 12. A projectile motion reaches its maximum range when the angle of projection is * | 1 point |
|---|---------|
| 45 degree   |         |
| O 60 degree   |         |
| O 30 degree   |         |
| O 90 degree   |         |
| 13. Path of projectile is called *  | 1 point |
| O circular  |         |
| trajectory  |         |
| ○ linear  |         |
| one of these  |         |
| 14. Shortest distance between initial and final position *                          | 1 point |
| O Distance  |         |
| <ul><li>Displacement</li></ul>  |         |
| Acceleration  |         |
| O Velocity  |         |
| 15. Rate of change of velocity is called *  | 1 point |
| O Distance  |         |
| O Displacement  |         |
| <ul><li>Acceleration</li></ul>  |         |
| O None of these   |         |

| 16. Pendulum of a clock is an example of *  | 1 point |
|---|---------|
| C Linear motion   |         |
| Circular motion   |         |
| Rotation  |         |
| Periodic motion   |         |
| 17. Law of Inertia was discovered by *  Roentgen  | 1 point |
| Newton  |         |
| Gallileo  |         |
| ○ Einstein  |         |
|   |         |
| 18. Recoil of a gun and Motion of a rocket are examples of *  | 1 point |
| <ul><li>18. Recoil of a gun and Motion of a rocket are examples of *</li><li>First law of motion</li></ul>  | 1 point |
|   | 1 point |
| First law of motion   | 1 point |
| <ul><li>First law of motion</li><li>Second law of motion</li></ul>  | 1 point |
| <ul><li>First law of motion</li><li>Second law of motion</li><li>Third law of motion</li></ul>  | 1 point |
| <ul> <li>First law of motion</li> <li>Second law of motion</li> <li>Third law of motion</li> <li>Circular motion</li> </ul>   |         |
| <ul> <li>First law of motion</li> <li>Second law of motion</li> <li>Third law of motion</li> <li>Circular motion</li> <li>19. Speed of light through vacuum is *</li> </ul>                     |         |
| <ul> <li>First law of motion</li> <li>Second law of motion</li> <li>Third law of motion</li> <li>Circular motion</li> <li>19. Speed of light through vacuum is *</li> <li>3×10^8 m/s</li> </ul> |         |

| 20. Time taken by moonlight to reach Earth is *  | 1 point |
|--|---------|
| 8 min 20 sec   |         |
| <ul><li>1.3 second</li></ul>   |         |
| 1 minute 3 seconds   |         |
| ○ 8.20 second  |         |
| 21. Change in direction of light when it passes from one medium to another is called * | 1 point |
| Dispersion   |         |
| Refraction   |         |
| Reflection   |         |
| Scattering   |         |
| 22. Fringe pattern of CD is due to *   | 1 point |
| O Dispersion   |         |
| Refraction   |         |
| Reflection   |         |
| Diffraction  |         |
| 23. Rays to detect forged bank notes in shops is called *                              | 1 point |
| U V Rays   |         |
| O Infrared rays  |         |
| ○ X rays   |         |
| O Gamma rays   |         |

| 24. Which mirror is known as the shaving mirror? * | 1 point |
|--|---------|
| Concave mirror                                     |         |
| O Convex mirror                                    |         |
| O Plane mirror                                     |         |
| O None of these                                    |         |
|  |         |
| 25. Secondary colours are *                        | 1 point |
| Red, Green,Blue                                    |         |
| ○ Green,Red,Cyan                                   |         |
| Yellow, Magenta, Cyan                              |         |
| Red, Green, Yellow                                 |         |
| THANK YOU!!!                                       |         |
